

## **The 5 finalists for Strategis 2020 are officially known !**

---

*Of the eight semi-finalist start-ups, only five remain !*

The Jury of Prix Strategis 2020 has selected the five finalist start-ups, during its second meeting. As always, these start-ups were chosen based on criteria of **INNOVATION QUALITY**, **GROWTH POTENTIAL** and **OPERATIONS MANAGEMENT**. The five finalist start-ups of Prix Strategis 2020 are:

**PXLVision** (identity verification), **9T Labs** (3D-printed carbon fiber), **SUN Bioscience** (cell cultures), **Microcaps** (precise distribution of pharmaceutical molecules), and **Pristem** (medical equipment for disadvantaged environments).

Congratulations to the finalists - but also to the three eliminated semi-finalists, who remain particularly promising in the eyes of our reknown Jury. We would already like to thank all the participants of the FIDAG Consulting Award, for their work on the operational analysis of start-ups, and the professional consultants for their coaching and advisory work.

Finally, and due to the current *state of necessity* declared by the Federal Council, we remind everyone that the Prix Strategis' closing ceremony has been postponed. The final date is currently being discussed with our partners, in particular with the Olympic Museum - it is in its unique environment that the ceremony will take place - and will be announced shortly.

*The Prix Strategis is a yearly startup award that provides, more than its 50kCHF prize money, great exposure and a chance to confront their project to a chosen Jury of renowned experts and people of the Swiss entrepreneurial landscape.*

*A press kit is available at : [prixstrategis.ch/en/presse](http://prixstrategis.ch/en/presse).*
